ISMAIL SABBAR

Full Stack Web Developer & Data Analyst

I'm SABBAR ISMAIL, a Full-Stack Web Developer with expertise in Linux, web scraping (Beautiful Soup), and back-end development (PHP, MySQL). I craft engaging websites using both traditional methods (HTML, CSS, JS) and popular CMS platforms like WordPress with Elementor. I'm adept at object-oriented programming (Java & C) and leverage data structures to solve problems efficiently. Additionally, I leverage R and Python for data analysis and impactful visualizations with Jupyter Notebook.

Education

- **Bacalaureat in Mathematical Sciences from ERRAZY High School in Settât**
From 2016 to July 2018 [ERRAZY High School](#) Settât
- **Bachelor's Degree in Computer Science - Software Development**
Since December 2019 [Chouaib Doukkali University](#) El-Jadida
Bachelor's Degree in Computer Science - Development of Computing Matter at the Faculty of Sciences, El Jadida, Chouaib Doukkali University.

Work experience

- **Freelancer**
Since September 2021 [Freelancer](#) El-jadida
As a freelancer, I specialize in developing websites, optimizing user experience, and performing web data scraping with Beautiful Soup. I also take on projects related to data analysis and visualisation, offering a flexible approach for customized projects and delivering quality results.
- **Mathematics and Computer Science Teacher**
From November 2021 to March 2022 [Study](#) El-Jadida
Mathematics and Computer Science Tutor at a Training Center. Passionate about teaching and student development.
- **Systems Installation and Device Repair Technician**
From September 2017 to June 2018 [Software & Hardware](#) Settât
Hands-on experience in system and device installation and repair workshops. Proficient in maintenance and troubleshooting. Committed to providing high-quality service and efficient problem-solving.
- **IGF Society**
From August 2022 to January 2023 [IGF](#) Casablanca
My mission here in this company was to develop a web application for their project called JANA PUZZLE and conduct training sessions on this application for the teachers, to ensure they use the application effectively in their schools.
- **Quality Agent at SEWS.**
From April 2023 to April 2024 [SEWS CABIND](#) Berrchid
