Education

Bacalaureat in Mathematical Sciences from ERRAZY High School in Settat

From 2016 to July 2018 ERRAZY High School Settat

Master's in Computer Science, Data Analyst

Since December 2023 Chouaib Doukkali University El-Jadida

Master's in Computer Science and Data Analysis at the Faculty of Sciences, El Jadida, Chouaib Doukkali University.

Work experience

Full Stack WEB Developer

Since March 2025 Kammari Communication Belgium

Professional experience as a Full Stack Web Developer with Kammari Communication, delivering tailored Perfex CRM modules and high-quality, responsive WordPress websites for Swift Marketing Agency.

Full Stack WEB Developer

From May 2024 to August 2024 VRW Casablanca, Morocco

I worked at VRW as a Full Stack Developer, specializing in WordPress development, where I designed and optimized custom websites while ensuring their performance, security, and scalability to meet clients' specific needs.

IGF Society

From August 2022 to January 2023 IGF Casablanca

My mission here in this company was to develop a web application for their project called JANA PUZZLE and conduct training sessions on this application for the teachers, to ensure they use the application effectively in their schools.

Freelancer

Since September 2021 Freelancer El-jadida

As a freelancer, I specialize in developing websites, optimizing user experience, and performing web data scraping with Beautiful Soup. I also take on projects related to data analysis and visualisation, offering a flexible approach for customized projects and delivering quality results.

Mathematics and Computer Science Teacher

From November 2021 to March 2022 Study El-Jadida

Mathematics and Computer Science Tutor at a Training Center. Passionate about teaching and student development.
